Mobile: 8018976778

## CAREER OBJECTIVE

Try to seek knowledge and experience in the IT industry and put efforts for the growth of the organization and have a great working environment.

## TECHNICAL SKILLS

- **Languages:** Python, JavaScript, HTML, CSS
- **Framework:** Django, React JS, Bootstrap, Tailwind CSS
- **Database:** MySQL

## EXPERIENCE

### Frontend Development Intern

#### DIGITAL DETA

April 2024 – July 2024

- **RIDA:** Developed the frontend of an e-commerce website **RIDA** using **HTML, Tailwind CSS, JavaScript, and React JS**.
- Created responsive **UIs** with Tailwind CSS, improving design consistency.
- Built **dynamic interfaces** with React JS, increasing user engagement by 20%.
- Integrated **RESTful APIs** with the backend team for seamless data flow.
- Participated in **code reviews** and agile development processes.
- **Digital Deta Lab:** Led the development of the frontend for a tutorial center website, implementing a user-friendly interface with **HTML, CSS, JavaScript, and React JS**.
- Designed and optimized responsive layouts to ensure seamless navigation across devices, enhancing the user experience for students and instructors.
- Additionally, developed and learned how to integrate a Python-based **chatbot** into the official website to improve user interaction and support. Key steps in adding the chatbot included setting up an API for communication, ensuring compatibility with the frontend, and testing for smooth user experience.

## EDUCATION

DEGREE/CERTIFICATE	BOARD/UNIVERSITY	% OF MARKS/CGPA	YEAR OF PASSING
Master of Computer Applications	SOA University	CGPA-8.26	2023
Bachelor of Science	Utkal University	77.88%	2021
12 <sup>th</sup>	CHSE	64.83%	2018
10 <sup>th</sup>	BSC	87.33%	2016

## PROJECT WORK

### 1. A Full stack E-Commerce Shopping App:

To build this Python-based app, I used the Django framework and the default SQLite database. I implemented user authentication, product management, shopping cart functionality, and secure payment integration to deliver a seamless shopping experience.

### 2. Frontend of Juice Website:

I developed the frontend of a Juice website using React.js, Material-UI, and Bootstrap to showcase a variety of juice products. React.js was utilized to create dynamic and responsive components, ensuring seamless navigation and engaging user interactions. Additionally, Material-UI's rich set of pre-designed components and Bootstrap's robust grid system were used to enhance the website's design and layout.

## PERSONAL PROFILE

**Date of Birth:** 04.04.2000

**Address:** Cuttack, Odisha

**Gender:** Female

**Hobbies:** Singing, Writing Journals

**Languages Known:** English, Hindi, and Odia
